

Earn Money for the Dingeman FFC by Doing What You Normally Do

Grocery Shopping

You spend \$500/month at VONS for groceries. Consider purchasing VONS gift cards through our gift card fundraiser. It still costs you \$500, but our school earns 4% (\$20) on that \$500. Make sure you've signed up your VONS shopper card through our eScrip enrollment program and you'll earn another 2% (\$10) for our school. You can earn \$30/month for the FFC simply by doing your normal grocery shopping. If all 600 Dingeman families did this, our school would earn \$18,000 in just one month or \$216,000 per year!!!

VONS gift cards purchased	\$500	
Profit percentage earned	x 4%	
Amount earned by FFC	<hr/>	\$20
Groceries purchased with gift cards	\$500	
eScrip profit percentage	x 2%	
Amount earned by FFC	<hr/>	\$10
Total amount earned / month		\$30
x # of Dingeman Families		<hr/> 600
Total potential earnings per month		\$18,000
x 12 months		<hr/> x 12
Total potential earnings per year		\$216,000

Family Dinner Night

You don't feel like cooking dinner tonight, so you go out to Islands and spend \$50. Buy an Islands gift card from the FFC and our school will earn 8% (\$4) on that dinner. And, if you use those gift cards on a Family Dinner Night, the FFC earns another 20% (\$10). That's \$14 total earnings on one dinner! If all 600 Dingeman families did this, we could earn \$8,400 for just one night out! We have family dinner nights a few times a year.

Islands gift cards purchased	\$50	
Profit percentage earned	x 8%	
Amount earned by FFC	<hr/>	\$4
Islands gift cards used for dinner	\$50	
Family dinner night profit	x 20%	
Amount earned by FFC	<hr/>	\$10
Total earned for one dinner		\$14
x # of Dingeman Families		<hr/> x 600
Total potential earnings for one dinner		\$8,400

Holiday Shopping

It's that time of year again -- time to think about your holiday shopping. You decide to purchase gift cards since they're easy to mail. You drive to Starbucks and spend \$50, then Macy's for \$100. You drive to Jamba Juice and buy \$30, then Regal Theaters. You drive to Toys R Us and spend \$100. You get the idea. By now, you've spent hours and an entire tank of gas buying gift cards. Next time, buy gift cards from the Dingeman FFC. The cards are conveniently delivered to your student, and you save time and gasoline. On these purchases, our school would have earned \$20.30. If all our families did this, we could earn \$12,180!

	Amt	x	%	= Profit
Starbucks card	\$50	x	7%	= \$3.50
Macy's card	\$100	x	10%	= \$10.00
Jamba Juice card	\$30	x	7%	= \$2.10
Regal Entertainment card	\$40	x	8%	= \$3.20
Toys R Us card	\$100	x	1.50%	= \$1.50
Total amount earned by FFC				\$20.30
x # of Dingeman Families				<hr/> x 600
Total potential earnings on holiday shopping				\$12,180

Ink Cartridge Recycling

Your printer just ran out of ink. You go to Staples and spend \$25 on a new ink cartridge. Next time, consider buying a Staples gift card and our school will earn 5% (\$1.25) on that purchase. Drop off your empty ink cartridge in the black and green recycling bin located near the front gate and our school earns \$.50 per cartridge. If each family buys one Staples gift card and recycles one ink cartridge, our FFC would earn \$1,050!

Staples gift card purchased	\$25	
Profit percentage earned	x 5%	
Amount earned by FFC	<hr/>	\$1.25
Ink cartridge recycled		<hr/> + \$.50
Total amount earned by FFC		\$1.75
x # of Dingeman Families		<hr/> x 600
Total potential earnings from one gift card and one ink cartridge per family		\$1,050

Thank you for doing your part to help our school by doing what you normally do.
